NUMBER 30...

Manitoba Farmers Visit In Raymond

Manitoba Beet Growers spent the early part of this week visiting the Sugar Factories here and at Picture Butte, also inspecting feed lots, and conversing with local growers on the industry and the use of the by products. It was an educational tour and all day Tuesday the growers spent in the Lethbridge Northern and Taber-Barnwell areas and were guests of the Beet Growers' Association in both districts.

Wednesday morning the visitors were conducted around Lethbridge visiting points of interest there and in the afternoon they went through the local factory and visited a number of feedlots. In the evening they were honored guests of the local Growers Association in the Opera House, the local group postponing their annual social one week so that the Manitoba growers could be their guests.

The evening's entertainment consisted of a luncheon, program and dancing, there being a large and interested crowd of growers and guests in attendance.

Commenting on the tour, Herbert Sulzers, president of the Manitoba growers said "This entire trip has certainly been an education to us all. We have known for years what Alberta beet growers are doing and now we have had a chance to see for ourselves."

WEATHER REPORT

This week the weather has been definitely milder, and there has been a Chinook in progress with the ice and snow melting slowly all day, although there was no wind with the warmth. It was a nice break after the two and a half weeks of cold weather and everyone is hoping now that we shall have mild weather until the New Year.

NEWS NOTES

The first Christmas Seal Sale was held in Denmark in 1904, the idea of Einar Holboell, a postal clerk.

Christmas Seals form the only source of revenue of the Alberta Tuberculosis Association.

Lieut. Jesse Knight of the U. S. Navy is spending a short leave in Raymond with relatives and friends.

Leo Powelson was injured Sunday night at the corner just north of the track in the north-west part of town when the truck went out of control on the slippery road and pinned him underneath it. A party was returning home on that road from Temple Hill when the accident occurred. Outside of a general shaking up of all occupants and a couple of broken ribs for Leo, the damage was confined to the truck.

A very good attendance was present for Rotary on Monday at the Sugar Bowl, and Lieut. Jesse Knight gave the fellows a very interesting talk on his experiences in the U. S. Navy, especially in connection with D day in Europe and the occupation following the break through. In all of which he had an interesting and dangerous part at times. Now that the war is over and the stories can be told, the boys really have had some interesting experiences, mingled in most cases, with a good healthy degree of comedy. The Rotary gave Jesse a big hand for his interesting talk.

Missionary Service Stressed at Conference

Each meeting of the Quarterly Conference held Saturday evening and Sunday was featured by large attendance from all wards of the Stake, reflecting the ease of travel since the lifting of gasoline rationing and the easing of the obtaining of tires. Elder Clifford E. Young, assistant to the Council of the Twelve was present representing the General authorities of the Church and was a speaker at all meetings.

A welfare meeting was held at 6:30 p.m. Saturday evening when the Welfare program of the Church was discussed and reports received on the welfare projects of the Stake. This was followed at 8:00 p.m. by a Priesthood Leadership meeting at which presidencies and secretaries of all the Melchizedic Priesthood Quorums were represented. Missionary work was stressed here and Elder Young in his remarks suggested that machinery be set up in each ward and branch, preferably through the Seventies Quorum, so that a fund can be set up to pay the transportation of all missionaries to their fields of labor. He said that missionary work in foreign fields would be stressed more in the future, and that through various projects and endeavors large sums of money should be raised from the Church membership at large to assist in this vital and important work.

He then reviewed the suggested new setup of Committees in the Priesthood Quorums, and a number of questions were asked and answered respecting this. This suggests three standing committees instead of four, as previously and suggests a member of the Quorum Presidency as chairman of each.

At 9 a.m. Sunday morning a general Priesthood meeting convened for the men, and a Mother's and daughter's meeting for the women and girls of the Church. Outlined programs were given at each meeting and in the Priesthood meeting Elder Young spoke on the responsibility each had in honoring and respecting their Priesthood and the blessings that would come from honest work.

The Sunday School session was held at 10:30 with 600 people present. The Aaronic Priesthood Chorus from the 1st Ward under the direction of Mrs. C.A. Hudson and the one from the 2nd Ward directed by Shirley W. King were present and each rendered two numbers during the meeting. Elder Geo. Spencer of Magrath, recently home after five years overseas bore his testimony and told of his visit to Rome, where he met his Holiness the Pope and presented him with a copy of the Book of Mormon. Elder E. L. Spackman of Raymond, spoke representing the nine short term missionaries expecting to leave from the Stake right away, and Elder Young spoke congratulating the missionaries on their willingness to serve, and making a few suggestions to them and to the entire membership in the presentation of the Gospel message to those not acquainted with it.

The Sunday afternoon session found the house packed again, and the Stake Choir rendered a very fine program of music for this session, among their numbers being: "King of Glory," "Holy Redeemer," with Mrs. Evelyn Melchior singing the solo and "The Xmas Story" with the violin obligato played by Nyal Fletcher of Magrath.

Elder Heber F. Allen of the Stake Presidency was the first speaker at this session and complimented the people on their attendance at the Conference and in speaking of missionary work told the stories of Alma the Younger, the great Book of Mormon missionary and the Apostle Paul, the great missionary of the Bible. He advised the missionaries to bear their testimony to the people and hold to first principles in their teachings.

Elder Ray Hardy and E. S. Heninger of the High Council spoke briefly and bore their testimonies to the truthfulness of the Gospel.

President Wood announced several releases and changes in the Stake Missionaries and also one or two other changes in Stake officers, and Stake Clerk Wm. Anderson presented

Lions Club Hold Regular Meeting

T. B. QUESTIONS AND ANSWERS

Q. Is there any danger of infection from exchanging books with a tuberculosis patient?

A. Unless the patient is very careless about coughing there should be no great danger. The hands should be washed thoroughly before eating, and the fingers should not be moistened to help turn pages.

Q. Is it advisable to allow children under 12 to visit in a sanatorium?

A. A sana torum should be as free from danger of infection as any place on earth. However, if the youngster is permitted to associate with patients who have positive sputum infection may occur.

Spent the Kiddies to see "MY PAL WOLF" at Matinee Saturday at 1:30.

At the General Church and Stake authorities and they were all sustained by vote.

Mrs. John Allen reported briefly on the Mothers and Daughters meeting of the morning and Pres. T. Geo. Wood urged on the people the need for assisting the youth in their problems and parents working to maintain the confidence of the children. Instead of "don'ting" the children in all they want to do, try and substitute something better to enable the children to spend their energy. If we take time to talk with them and not at them we shall go far in helping them in their problems.

Elder Young was the concluding speaker, and urged above all else that the parents be an example in all things for their children. We will not get far with our teaching, unless we lead the way. It was his opinion that we needed a little more firmness in our parental efforts, and that amongst the finest and safest safeguards for solidity of the family were family prayers at least once each day and the blessing of the food at every meal. The foundation and strength of the Church is the home. Keep it sacred, make it home as long as the children live and always take time to be sympathetic and understanding with the children in their problems was the concluding plea of the speaker.

It is expected that the following long term missionaries will leave the Stake early in December: Miss Amy Allen and Elder Reid Fawcett of the Raymond 1st Ward, Elder Grant and Willard Paxman of the Raymond 2nd Ward and Elder Leonard McKee of the Stirling Ward.

The following short term missionaries are also expecting to report for missionary work between now and the 10th of December: Elders E. L. Spackman and Eldon Garner from the Raymond 2nd Ward, Mrs. Loe Brewerton from the Raymond 1st, Elders Alfred Zang and Clell Hogen son of Stirling, Elder Geo. Thomson from the Magrath 1st and Elder Geo. Loxton from the Magrath 2nd Ward and Mrs. Garth Wright of the Rosemary Ward, formerly of the Raymond 1st are also leaving. These short term missionaries were set apart for their labors by Elder Young in a special meeting following the afternoon meeting.

The Stake Choir was in attendance again for the evening meeting which was under the direction of the Mrs. Canadian Army, and Lieut. Jesse Knight of the U.S. Navy both spoke briefly representing the Armed services. All of the service personnel were given seats of honor on the stand for this meeting. The choir was the main speaker again at the concluding session and urged the youth to live lives of cleanliness and purity and to prove themselves worthy of the heritage they have received through their noble parents. He spoke of the fine example of the great majority of LDS service personnel and of the great power they had been for good in the world. A fine, clean life is its own reward in happiness and contentment.

Vice Pres M. Hansen was in the chair at the regular meeting of the Lions Club held in the Sugar Bowl Monday evening November 19. Pres. Karl Wilde was visiting in Great Falls.

"Oh Canada" was sung and prayer offered by Lion G. Snow. A Lion Herbert Wilde led the members in a song prior to the serving of the meal.

Lion J. McLean chairman introduced Don Vincent as his guest for the evening and Golden Snow introduced Ben Mitchell as his guest.

Lion Jack Vanderhilt was chairman in giving the Lions Roar in honor of the guests.

Approximately 25 members promised to attend the Zone Meeting in Cardston on Wednesday Nov. 21st.

Lion L. D. King entertained the assembly, with a few high lights on his visit to the States.

Lion Joe McLean asked Vice Pres Hansen to repeat his Baseball story by special request.

Don Vincent then gave a few of his experiences in the Alaskan Islands. This talk was very educational and interesting.

Ben Mitchell promised to be present at the next meeting and relate some of his experiences.

The meeting closed by singing "God Save the King."

Mrs. Carter Passes

Mrs. Alma Carter, 76, old-timer of Raymond and Southern Alberta, passed away in the local hospital early Thursday morning after nearly three weeks' illness. She had been in ill health for some time.

The family lived in Raymond for many years and then homesteaded in the Del Bonita country. They moved back into Raymond a number of years ago and Mr. Carter died here in 1939. Four sons and two daughters survive. Funeral arrangements have not been announced.

NEWS NOTES

See "Smilin' Through" showing at the Capitol Friday and Saturday, 1st show Saturday at 7 p.m.

A C.P.R. Express truck makes the trip from Lethbridge to Raymond every morning, thus giving us a daily express service.

T. Geo. Wood, General Manager of Canadian Sugar Factories, Ltd., left by train Sunday evening for Eastern Canada on business for the Company.

Dr. Robert Koch, discoverer in 1882 of the tuberculosis germ, said that medical men should study, not the number of deaths from T.B., but the spread of the disease among the living.

VOCALIST

A young Winnipeg vocalist who is making a hit on CBC network is MAXINE WAIRE heard regularly with Parks and Burdett, two pianists, on Mondays, at 7:45 p.m. CST, in the series "Rhythm and Romance."

NEWS NOTES

Christmas Seals have helped to reduce tuberculosis from the first cause of death in 1912 to seventh in 1944.

Do not miss "SMILIN' THROUGH" in dazzling technicolor playing Friday and Saturday.

Emily Bissell of Wilmington, Del., started the first Christmas Seal campaign in the United States in 1907.

Since September, 1939, tuberculosis has caused 36,000 deaths in Canada, and 90,000 persons have developed the disease.

A baby boy was born to Petty Officer and Mrs. Vic Miller in the Galt Hospital on Nov. 15th. Both are doing fine. Our congratulations to the proud parents.

Albertans subscribed \$3,622,500 in the Ninth Victory Loan. This is some thing of which we may all be proud, and in reaching the two billion dollar total in the Dominion Canadians are really showing their faith in Canada.

NARRATOR

JOHN DRAINIE won himself a reputation for acting in radio drama circles of Vancouver, his home town, which he has maintained since his move to Toronto as CBC announcer in 1943. Now free lancing, he has starred in many of radio's most notable plays, and currently is narrator on the "Electric Hour" Mondays, at 7:00 p.m. CST, over the CBC Dominion network.

USE XMAS T.B. SEALS

Festive "Christmas" appearance of His Majesty's Mail these days is caused by the million of Christmas Seals that are being distributed thru out the province by the Alberta Tuberculosis Association.

President T. L. Ferguson of Lethbridge said today that this is expected to be the greatest Seal sale in history, as mailing lists have been increased to nearly 150,000.

"We definitely have tuberculosis on the run," said Mr. Ferguson, "but we must not slacken on that account either in our redoubled efforts hitting hard and repeatedly at this enemy of the youth of our country."

ASTONISHING growth of the Seal sale in Alberta was indicated by Mr. Ferguson. Receipts in 1941 totalled \$18,000. Last year Alberta raised \$60,000. This year's quota is \$90,000, and this high figure is necessary in order to keep up the Association's present program and increase the services. These include expansions in the work of the Mobile Chest X-ray Clinics, rehabilitation and education.

Amounts expected to be raised by local Associations are as follows: Banff \$1,000; Calgary \$17,000; Cardston \$1,300; Drumheller \$3,000; Edmonton \$45,000; High River \$2,000; Lethbridge \$8,000; Medicine Hat \$5,500; Red Deer \$7,200.

TOBACCO AND YOUTH

We have noticed in the papers recently several prosecutions for violating the tobacco law by selling tobacco to minors. According to police reports this is a growing menace throughout Southern Alberta, and in our opinion, every parent should give 100 per cent to the police in their efforts to stamp out this evil.

We have it too, in our own town. It has been stated that with the exception of one, tobacco can be purchased at all of our Chinese restaurants by minors. If this is true then the licenses of our restaurants should be evoked and not renewed. The battle with tobacco is bid enough amongst those who are of age, to say nothing of having to fight it amongst eleven and twelve year old children. What can people be thinking about who will circumvent the law and furnish tobacco with its poison and attendant evils to children of this tender age. If the habit is formed at this age what prospect is there of these victims shaking the habit when they are older.

Then too, minors going to school afflicted with the smoking habit, even if tolerated in the school, do little but go to school. Their progress is negligible, they interest always at a low ebb, and very few of them, very few, ever finish even a grade

Twelve schooling. In this day of specialisation what opportunities are there for the uneducated?

With our Provincial and Canadian laws as they are, there is little that can be done amongst men and women of age with respect to smoking. If they choose to become victims to King Nicotine, there is nothing legally that can be done. With the law on our side, however, it is different. We have the law on our side. Offenders either selling or giving tobacco to minors are committing an offense. We have law on our side, we have police officers to enforce the law, and we have a Town Council to see that it is enforced. But as a community, as parents and individuals, do we have the moral backbone to ask that it be enforced, or would we rather sit by and talk about it and do nothing? There is the challenge to the individuals who make up the community. Here is where we can put democracy and freedom to work in the interest

of the future. Shall we do something, or shall we let it go on and permit the evil to increase in our midst. Mr. and Mrs. Citizen, YOU and you alone have the answer.

CORRESPONDENCE

The Recorder,
Raymond, Alberta.
Dear Mr. May,

I take this opportunity of thanking you for the excellent work you did in assisting your town to overcome the top so successfully in the Ninth Victory Loan. Without the active support of the newspaper, the wonderful results would have been impossible to obtain.

On behalf of the National War Finance Committee, we thank you very much for your efforts.

Yours very truly,
J. B. CROSS

Provincial Chairman,
Public Relations Section

NEWS NOTES

The final bonus on 1944 bonds mailed last week, brought the total payments to \$10.92 per ton.

One sugar coupon and four preserves coupons will become valid in December according to an announcement of the W.P.T.B.

Forrest Packard, son-in-law of Mrs. CCarter is visiting here with relatives. He has been in the U.S. Army and was a Japanese prisoner of war in Korea and several of the Pacific Islands.

Work is progressing rapidly on the Raymond Mercantile Repair Shop and it will be in operation soon. We understand that Johnny McLean will rent the shop when the building is completed.

Mr. and Mrs. Sam Dyson and children left Monday for Nanaimo, B.C. Hy. Fromm taking them to Lethbridge to catch the train from there. Mrs. Dyson's health has been very poorly since returning here from the Coast climate.

BLACK FLAGS on U Boats

When Nazi U-boat commanders hoisted black flags of surrender, it was a "go ahead" signal to the three out of every eight Canadians who normally depend for their livelihood on export trade.

For five years the flow of foreign trade has been largely a government responsibility. But now, to help create peacetime jobs, Canadian enterprise must do its full share in finding customers abroad. This means doing business all over the world, in strange and distant cities, in a hundred languages and currencies.

Canadian banks have a key role in this complicated but essential peacetime task. Every day their foreign branches and correspondents arrange credits, handle documents and perform other intricate operations to bring buyers and sellers together across the obstacles of distance, language and custom.

This banking service is of primary importance to business and to every Canadian worker as Canada turns to the task of re-creating trade abroad to provide jobs at home.

WEEKLY LETTER

A FEW THOUGHTS ON THE PRODUCTION OF HATCHING EGGS

With more and more emphasis being placed on poultry production, especially hatchability and chick quality, it is not too early to start thinking of next year's hatchling eggs. This is for the person who ships hatching eggs as well as the breeder who incubates his eggs on his own plant or farm.

If hatching from pullets, now is the time to go over the birds very carefully. House only mature, well developed birds, free from standard disqualifications and which are typical of the breed they represent. These birds should not be forced into production too early, as early grain production usually means small birds with correspondingly small eggs.

Once these birds are laying, they should not be permitted to reach too high a level of production, as birds which have been kept at peak production during fall and winter months cannot be expected to produce eggs at hatching time which will give high hatchability combined with top quality chicks.

If it is desired to hatch from hens yearlings or older, there is a slight difference, problem presented by hens who have continued in production throughout the summer and fall. Call all early moulters and keep only healthy, vigorous birds. These hens should be given a rest before being brought back into production. During this rest period, feed sparingly, as hens are inclined to put on fat when fed too much whole grain.

Just a word about a very important factor in producing good hatching

DO YOU KNOW HOW MUCH A KILOWATT HOUR IS?

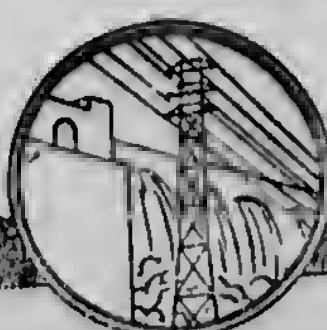

No man can make a kilowatt hour in a day with his muscles alone, but Reddy Kilowatt supplies you with unlimited kilowatt hours at very low cost.

Take advantage of his low wages and let him do as much of your work as possible.

It is said in order to learn the value of anything, try to make one yourself. In the case of a kilowatt hour of electricity, you'll find it quite a task to make even one.

Several years ago a stationary bicycle was built to drive an electric generator. At numerous Electrical Shows many tried their hand, or rather legs, at generating electricity. At one show, 213 people pedaled the machine until they were tired, and their combined work produced only 2 1/2 kilowatt hours of electricity!

At Madison Square Garden a champion six-day bicycle rider pedaled this same machine in a desperate sprint of one minute. The meter showed that he made about five-hundredth of a kilowatt hour. If he and his team mate had kept up this sprint for six days and nights (impossible of course) they together would have made about 47c worth of electricity — poor pay for a week's work for two famous athletes.

PEAS IN ALBERTA

Yields of thirty-three bushels of peas giving a gross return of \$80.00 per acre in 1944 led many farmers in the grey wooded soils area to include this crop in their rotation. In the Broton Warburg area, for instance, the acreage jumped from 80 acres to about 1400 acres. As a result of drought in the early part of the season much of the land this year was poorly prepared, and the average yield was about 10 bushels.

In the opinion of Dr. J.D. Newton, Department of Soils, University of Alberta, this increase in acreage is a desirable development. Greater diversification of crops is generally good practice, and peas, like other legumes, are usually beneficial to soil particularly grey wooded soils. However, Dr. Newton cautions that peas cannot compete with weeds as some other crops. They should be planted on fairly lean land such as well cultivated land following clover or grass sod, or on clean summer fallow. Like other legumes, satisfactory crops of peas cannot be produced in many of these soils without the use of fertilizers containing sulphur. Finally, says Dr. Newton, nitrogen is not fixed unless the peas are inoculated with nitrogen fixing bacteria. Inoculation with good strains of these bacteria is very desirable.

In spite of this year's low returns,

No More Soap

Clean anything and everything the Modern Way by using KLEEN-ALL. Washes clothes whiter cleaner and quicker without bleaching. Harmless to the finest fabric. Ideal for cleaning the hands, dishes, pots and pans. Glassware, silver. Try it on your bath tub, toilet, sink or anything else you want really clean, softens any water. If you like suds add a small amount of any kind of soap and watch them rise. KLEEN-ALL, cleans cleaner order from your grocer today. (Advt.)

"Christmas Seal your Xmas mail."

At a U.S. Navy recruiting station this slogan was to the wall "The turtle never makes any progress until he sticks his neck out."

Dr. Newton is satisfied that peas will become a most profitable crop on the farms of those who make certain that the crop requirements are met.

By
DR. K. W. NEATBY
Director
Line Elevators Farm Service
Winnipeg, Manitoba

Seed Testing Service

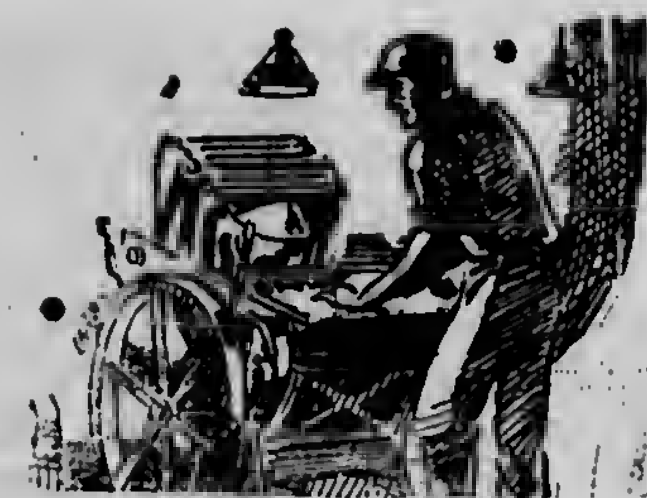

In accordance with a promise made nearly two years ago, Line Elevators Farm Service now offers a complete seed testing service to growers of wheat, oats, barley, rye and flax. Examination and testing of samples will include consideration of five important factors.

1. Germination. Tests will be made as heretofore.
2. Weed Seeds. The presence of noxious weed seeds will be reported on request.
3. Smuts. All wheat samples will be tested for bunt (stinking smut) and tests will be made on oats or barley if requested. Reports will include recommendations as to seed treatment.
4. Other Diseases. As samples are removed from the germinators, they will be examined for the presence of other diseases.
5. Mechanical Damage to the seed will be determined since it has an important bearing on the method of seed treatment.

Farmers should instruct elevator agents as to which tests are required. Wheat samples will be grown and examined for varietal purity next summer if the farmer so desires.

This is the only single laboratory in Canada equipped to perform such a service. The equipment is first-class and the staff well trained. No effort has been spared to insure that methods of testing shall be similar in all essentials to those developed in Dominion Government laboratories.

Samples must be at least 4 quarts and not more than 6 quarts. Line Elevator agents will provide envelopes and send the samples to Line Elevators Farm Service, Winnipeg.
